

I am an American and I would like to live in a democracy. Sinclair Broadcasting, which uses the public airwaves free of charge, must serve the public interest in a just manner. Allowing Sinclair Broadcasting to force their stations to air an anti-Kerry documentary merely days before the election is clearly a partisan act and should not be tolerated, unless an equally charged anti-Bush documentary is also forced to be aired.

Large companies (such as Sinclair Broadcasting), not the people, are controlling the airways for their own benefit. Is this democracy?

Please stop Sinclair Broadcasting. "Big Media" is overshadowing and quieting the local news that matters to my community. I ask you to preserve our democracy in America.

Thank you.
